	On perusal of the document submitted by the petitioner it is revealed that so far as for persons belonging to the backward classes there is one vacancy in the subject of Computer Science. If that be so, in my view since the student desires to change the branch of engineering studies from Civil to Computer Science, his case may be considered against the available one seat of Computer Science along with other eligible candidates. With the above observations, the petition is disposed of. C.C. today. Sd/- Chief Justice
